TRANSFER TANKS

REDESIGNED WITH
STRENGTH
WHERE IT COUNTS.

STRONGER DESIGN.

We've engineered a stronger, smarter design for long hauls.

REINFORCED AND RELIABLE

We've reinforced the weak spots with new rounded corners.

INTEGRATED MOUNTING TABS

No more stress points.
We made installs easier
because your time matters.

▲ Model 350-3-03

**MEETS DOT
REQUIREMENTS**

BUILT STRONG. INSTALLS FAST.

The all-new WEATHER GUARD® Transfer Tank is built for the long haul—heavy-duty steel, rounded corners, and integrated mounting tabs to eliminate weak points and speed install. Interior baffles cut slosh and add strength, while a lockable vented cap and 2" threaded neck make fueling simple and pressure controlled. Designed to meet DOT requirements for diesel and non-flammable liquids, finished in White or Matte Black ARMOR TUF® Powder Coat, and backed by a Limited Lifetime Warranty.

WEATHER GUARD® TRANSFER TANKS

INTERIOR BAFFLES

Slosh control that extends tank life and keeps your ride steady.

MEETS DOT REQUIREMENTS

Designed to meet federal safety standards for hauling diesel and non-flammable liquids.

ISOLATION MOUNTING

Rubber isolation bushings absorb road vibration.

FLEET EFFICIENCY BUILT IN

Fewer complaints. Fewer replacements. More uptime.

ROUNDED CORNERS

We fixed the common failure points, so they stop cracks before they start.
